your recording and creates a snapshot of it, similar to the noise print in the De-noise module.. Why is this important? For one thing, many RX modules learn profiles from selected slices of audio.

WorkflowUsing Ambience Match module in the RX Audio EditorTo train Ambience Match, provide it with a selection of raw noise.. To train Ambience Match, provide it with a selection of raw noise If there is no single fragment of raw noise, or you want to save time, speech can be used.. The Trim control adjusts the level of synthesized ambience Select Output Ambience Only if you want the selection replaced with only the ambience from the first selection.. 4 Standalone Core Audio Driver If you are on Snow Leopard use the 8 0 3 Standalone Core Audio Driver.. Note you will be adding the entire folders labelled 'Ambience Match', 'Azimuth', etc.. The algorithm will intelligently discard speech and only leave noisy parts in the noise print.. Keyboard Shortcut Guide The following table lists all default keyboard shortcuts in the RX Audio Editor.
